

Dear mailing list subscribers,

**the church** USA Future Past Perfect USA 2011 Winter Tour ended on a major high at The Variety Playhouse with the realization that we had sold out venues on the east and west coast of the USA and broke all merchandise records (including in venues). The band is on a hiatus until our Sydney Opera House show on April 10<sup>th</sup>. We want to thank each and every one of you who travelled to our shows and for the fantastic reception we received from all of you from Los Angeles to Atlanta.

For those who couldn't make it, we'd love to share these links with you. Thank you to the people behind the stories, interviews and photographs. We appreciate your time and effort. It helps us continue to follow our dreams and we're very appreciative of the opportunities that allow us to do that.

"Playing three full albums a night on their "Future Past Perfect" tour, the Australian psych-pop veterans **the church** took time from their marathon performances to stop by KEXP for an abbreviated and stripped down sample from their three-decade long career. Band mates Steve Kilbey, Marty Wilson-Piper, Peter Koppes and Tim Powles played a luscious set of songs including some rare renditions you're unlikely to have heard before. Check out the videos from their acoustic session here" :
